

# Challenges in the HVACR industry?

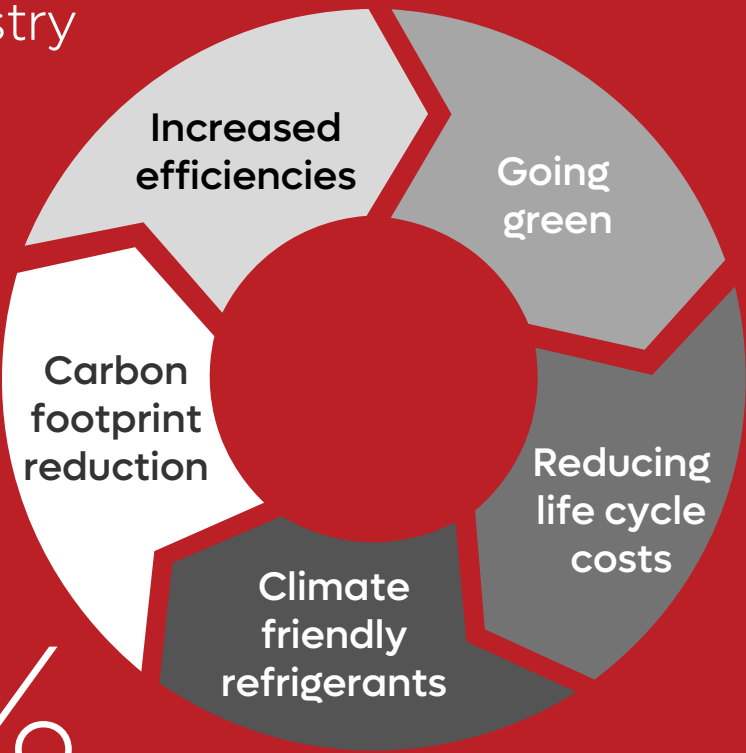

Here's where HVACR industry experts and engineers are focused on in

2025 →

HVACR industry projected CAGR growth from 2025-2030

7.5%

HVAC equipment market size in 2024 was

249bn

Leading HVACR companies like Trane, Emerson and Carrier are accelerating product development by implementing simulation solutions

A leading manufacturer has committed to be carbon neutral across its operations by

2030

Simulation provides opportunity for key applications in the HVACR industry including:

- Building Energy Management
- Water Heating
- Heat Pumps
- Heat Exchangers
- Air-conditioning

Learn more about Gamma Technologies' HVACR simulation solutions and see how our software can help you...

Reduce development time

Improve product reliability

Reduce cost

Reduce physical testing
